

TeamSTEPPS SWOT Analysis

Assessing Organizational Readiness: SWOT Analysis

Part I: Analysis

The intent of a SWOT Analysis is to determine the readiness of implementing a teamwork initiative within your facility.

Through brainstorming, answer the questions within each category and record your responses on the tool provided.

- S** – What **strengths** in your present operation can you draw on to facilitate a transition to a teamwork system?
- W** – What **weaknesses** in your present operation may hinder this transition?
- O** – What future **opportunities** exist for your department or unit under a teamwork system?
- T** – Organize a list of potential **threats** to implementing a teamwork system within your nursing home.

Part II: Action Planning (20 minutes)

- Examine the list of items under weaknesses and threats.
- List these issues in order of priority on the Action Plan.
- Identify at least two strategies to deal with each issue.
- In order of priority, list the identified weaknesses and threats on an action plan.
